

Lab 2 Placeholder

Workspace Folder Structure

I went to my Workspace folder, created an ArchOSC Assignment folder, and inside it a Pictures folder for screenshots.

Opening The Terminal

I right-clicked inside my `GitHub and CICD` folder and selected "Open in Terminal", then ran `git init` to create a new local Git repository.

```
C:\Users\202503876\Workspace\Lab2\GitHubandCICD>git init
Initialized empty Git repository in C:/Users/202503876/Workspace/Lab2/GitHubandCICD/.git/

C:\Users\202503876\Workspace\Lab2\GitHubandCICD>
C:\Users\202503876\Workspace\Lab2\GitHubandCICD>
```

Created GitHub Repository

I logged into GitHub, clicked the green "New" button, and created a private repository named [ARCHOSC-Assignment-A-ALKAYYAL](#) with a README file and Visual Studio Git ignore.

Linking Local Repo to GitHub

I ran `git remote add origin https://github.com/A-ALKAYYAL/ARCHOSC-Assignment-A-ALKAYYAL` to connect my local repository to GitHub, then used `git pull origin main` to fetch the README file from the online repo.

```
C:\Users\202503876\Workspace\Lab2\GitHubandCICD>git pull origin main
remote: Enumerating objects: 6, done.
remote: Counting objects: 100% (6/6), done.
remote: Compressing objects: 100% (2/2), done.
remote: Total 6 (delta 0), reused 0 (delta 0), pack-reused 0 (from 0)
Unpacking objects: 100% (6/6), 1.76 KiB | 64.00 KiB/s, done.
From https://github.com/A-ALKAYYAL/ARCHOSC-Assignment-A-ALKAYYAL
* branch                main          -> FETCH_HEAD
* [new branch]           main          -> origin/main

C:\Users\202503876\Workspace\Lab2\GitHubandCICD>
```

Created Basic Website

I opened VS Code, created a new file, pasted the HTML code, and saved it as index.html inside my workspace folder. I then double-clicked the file to view the website in my browser.

Updated Local Repository

I ran git status to see untracked files, used `git add .` to stage all files, then ran `git commit -m "new files"` to save them to my local repository.

```

C:\Users\202503876\Workspace\Lab2\ArchOSC Assignment>git status
On branch master
Untracked files:
  (use "git add <file>..." to include in what will be committed)
    Pictures/
    index.html

nothing added to commit but untracked files present (use "git add" to track)

C:\Users\202503876\Workspace\Lab2\ArchOSC Assignment>git add .

C:\Users\202503876\Workspace\Lab2\ArchOSC Assignment>git status
On branch master
Changes to be committed:
  (use "git restore --staged <file>..." to unstage)
    new file:   Pictures/000.jpg
    new file:   Pictures/001.jpg
    new file:   Pictures/002.jpg
    new file:   Pictures/003.jpg
    new file:   index.html

C:\Users\202503876\Workspace\Lab2\ArchOSC Assignment>git commit -m "new files"
[master 944e0c7] new files
5 files changed, 26 insertions(+)
create mode 100644 Pictures/000.jpg
create mode 100644 Pictures/001.jpg
create mode 100644 Pictures/002.jpg
create mode 100644 Pictures/003.jpg

```

Pushed Local Repository to GitHub

I ran `git branch -m master main` to rename my branch, then used `git push -u origin main` to upload my local repository to GitHub.

```

C:\Users\202503876\Workspace\Lab2\ArchOSC Assignment>git push origin master
Enumerating objects: 9, done.
Counting objects: 100% (9/9), done.
Delta compression using up to 16 threads
Compressing objects: 100% (8/8), done.
Writing objects: 100% (8/8), 283.43 KiB | 23.62 MiB/s, done.
Total 8 (delta 0), reused 0 (delta 0), pack-reused 0

Improve your website.

Change 1 – Gradient Background

Changed solid gray to purple-blue gradient.

Change 2 – Gold Name with Blur Box

Made name gold (#ffd700) and added rounded semi-transparent box with blur.

```
<!DOCTYPE html>
<html lang="en">
<head>

```

Deployed Website to GitHub Pages

I went to Settings → Pages, set branch to main, and saved. Then I clicked the deployment link to view my live website.

Fixing Private Repository Issue

I accepted the GitHub Classroom assignment, created two local folders (OriginalAssignment and NewAssignment), pulled my old repo into the first and the classroom repo into the second, copied all files from OriginalAssignment to NewAssignment, committed with the message "Ported Assignments", and redeployed to GitHub Pages.
